## Mommy

Mommy, I can say Mommy When I need help I call her name, she comes to help me Some day I'll do the same

Daddy, I can say Daddy I like to be with him each day, he always teaches me Some new words to say

So many words to learn to say I'll learn them all some day I'll practice saying them out loud And listen to their pretty sound

Baby, I can say baby When the baby cries I know why She either wants to eat, or she needs some sleep

Kitty, I can say kitty
I like to pat my kitty's fur, she tells me that she likes me
With her gentle purr

Doggie, I can say doggie My doggie and I play in the grass, I like to chase him He runs very fast

So many words to learn to say I'll learn them all some day I'll practice saying them out loud And listen to their pretty sound

Mommy, can you say Mommy? Daddy, can you say Daddy? Baby, can you say baby Kitty, can you say kitty? Doggie, can you say doggie?
